This presentation includes unaudited non-GAAPfinancial measures including EBITDA, adjusted EBITDA, net cash (debt) and free cash flow. We define EBITDA as net income (loss) plus interest expense (including losses on the extinguishment of debt and net of interest income), income taxes and depreciation and amortization. We define adjusted EBITDA plus any share-based compensation expense, any foreign currency income or losses, any gains or losses on the sale of assets and asset impairments and any restructuring charges. We define net cash (debt) as total unrestricted cash and cash equivalents less the total principal amount of debt outstanding. We define free cash flow as net cash flow from operating activities less capital expenditures. We present non-GAAPmeasures when we believe that the additional information is useful and meaningful to investors. Non-GAAPfinancial measures do not have any standardized meaning and are therefore unlikely to be comparable to similar measures presented by other companies. The presentation of non-GAAPfinancial measures is not intended to be a substitute for, and should not be considered in isolation from, the financial measures reported in accordance with GAAP. See the Appendix for the reconciliations of certain non-GAAPfinancial measures to the comparable GAAPmeasures.

This presentation also contains estimates and other information concerning our industry that are based on industry publications, surveys and forecasts. <sup>(1)</sup> Discontinued operations include the results of business operations in China, which comprised the entirety of the Asia reporting segment.

## **Business Update**

#### 2023 TPI Guidance

#### **Sales from Continuing Operations**

\$1.6 billion to \$1.7 billion

# Adjusted EBITDA Margin % from Continuing Operations

Low single digit (1)

**Utilization %** 

85% to 90% on 37 lines

Sales from continuing operations up high single digit to low double digits as a percent of sales compared with 2022:

- + Blade sales up due to:
  - Increased demand in the U.S and global footprint alignment
  - ASPs up ~\$2K/blade
- + Field Services sales

Adjusted EBITDA margin % from continuing operations:

- + Structural cost savings
- + Margin flow on sales volume due to improved utilization
- Wage adjustments and inflation not able to be offset with pricing and/or foreign currency

Utilization improves from 79% in 2022 to 85% to 90% in 2023 driven by increased demand in the U.S. and our global footprint alignment.

#### **Capital Expenditures**

#### **Approximately \$25 million**

Capital expenditures increase to approximately \$25 million in 2023 from \$18.8 million in 2022 as we expect to start investing in infrastructure for the U.S. market in the second half of 2023.

(1) Includes approximately 250-300 basis points of contract related costs in excess of revenue related to the Company's facility in Matamoros, Mexico that was taken over from Nordex in July 2021.

Q4 2022 Earnings Call

# **Long-Term Financial Targets for Wind**

**Annual Wind Revenue** 

\$2 billion+

Adj. EBITDA Margin %

**High-single digit** 

Free Cash Flow as % of Sales

Mid-single digit

**CAPEX as % of Sales** 

Low-single digit

#### Key Assumptions:

- Energy independence/security and environmental imperatives favorably drive governmental policy incentivizing renewable energy
- No additional facilities needed
- Capacity of approximately 3,600 sets per year, or 14 GW
- Utilization ~ 90%
- Capex to start idled lines in the range of \$25 million to \$35 million

Q&A

# **Appendix – Non-GAAP Financial Information**

This presentation includes unaudited non-GAAP financial measures including EBITDA, adjusted EBITDA, net cash (debt) and free cash flow. We define EBITDA as net income (loss) plus interest expense (including losses on the extinguishment of debt and net of interest income), income taxes and depreciation and amortization. We define Adjusted EBITDA as EBITDA plus any share-based compensation expense, any foreign currency income or losses, any gains or losses on the sale of assets and asset impairments and any restructuring charges. We define net cash (debt) as total unrestricted cash and cash equivalents less the total principal amount of debt outstanding. We define free cash flow as net cash flow from operating activities less capital expenditures. We present non-GAAP measures when we believe that the additional information is useful and meaningful to investors. Non-GAAP financial measures do not have any standardized meaning and are therefore unlikely to be comparable to similar measures presented by other companies. The presentation of non-GAAP financial measures is not intended to be a substitute for, and should not be considered in isolation from, the financial measures reported in accordance with GAAP.

We provide forward-looking statements in the form of guidance in our quarterly earnings releases and during our quarterly earnings conference calls. This guidance is provided on a non-GAAP basis and cannot be reconciled to the closest GAAP measures without unreasonable effort because of the unpredictability of the amounts and timing of events affecting the items we exclude from non-GAAP measures. For example, stock-based compensation is unpredictable for our performance-based awards, which can fluctuate significantly based on current expectations of future achievement of performance-based targets. Amortization of intangible assets and restructuring costs are all impacted by the timing and size of potential future actions, which are difficult to predict. In addition, from time to time, we exclude certain items that occur infrequently, which are also inherently difficult to predict and estimate. It is also difficult to predict the tax effect of the items we exclude and to estimate certain discrete tax items, like the resolution of tax audits or changes to tax laws. As such, the costs that are being excluded from non-GAAP guidance are difficult to predict and a reconciliation or a range of results could lead to disclosure that would be imprecise or potentially misleading. Material changes to any one of the exclusions could have a significant effect on our guidance and future GAAP results.

See below for a reconciliation of certain non-GAAP financial measures to the comparable GAAP measures.
